

About Ibisco®

Ibisco is dealing with development and marketing of corporate finance software. The guiding principles in developing our software are easy, logical and reliable use, a broad range of potential applications, and compatibility with standard PC software platforms. Our customers are financial professionals in companies, consultancies, and financial institutions. Ibisco software offers unparalleled performance among corporate finance software applications.

Ibisco® Finplan2019

Ibisco Finplan® is financial software based on Microsoft® Office and designed for a wide range of applications in the area of corporate finance. Finplan assists financial professionals with their day-to-day work and improves productivity and quality in a highly cost effective manner. In short - Finplan is empowering financial professionals.

Finplan features

- Financial performance analysis.
- Financial planning (budgeting).
- Rating analysis.
- Capital budgeting.
- Corporate valuation.
- Reporting.

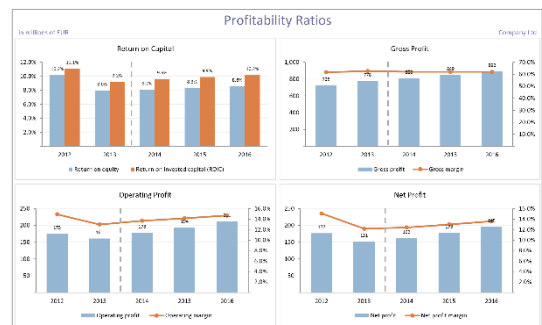

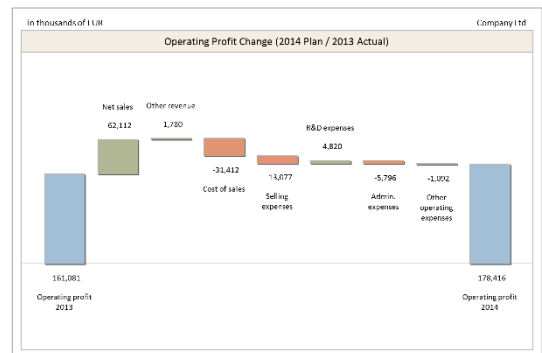

Finplan can be easily connected with various operating software and data sources.

Finplan user needs very little of training to get the necessary knowledge for comfortably using the software.

Finplan is based on International Financial Reporting Standards (IFRS).

Finplan enables the user to focus his resources on the content rather than on detailed technical issues which Finplan takes care of instead.
